

MILL VALLEY HEMP COMPANY AND CANNAVISTA WELLNESS were founded to serve their community by providing a compassionate patient-focused approach to natural health care. We are located in the heart of Buchanan's historic district in a building that has been beautifully restored and repurposed into a welcoming healing and wellness center. We have assembled a team of friendly, knowledgeable consultants to provide you with the highest quality products. With the current uncertainty in our world, let our team of consultants find solutions to all your concerns relating to stress, anxiety, pain management and mood enhancement.

Call to schedule a phone consultation with an experienced caregiver or our Chief Science Officer. Currently, all orders must be placed over the phone or online at www.cannavistawellness.com and scheduled for curbside pick-up or delivery.

...

We all look forward to the day when we can again reengage in our community. We are a proud Michigan business and supportive of our local providers.

CASEY'S STORY

In October of 2014, I was involved in an accident which resulted in a fractured hip, shattered discs in my back, permanent nerve damage, and chronic pain. I tried many treatments including surgery, spinal blocks, a spinal cord stimulator, and countless visits to physical therapy. I was placed on multiple medications in attempt to control my pain, escalating to 13 medications at one time. These medications resulted in overwhelming fatigue and wouldn't allow me to be the Mother, wife or friend that I wanted to be. I was robbed of my independence, a job that I loved, and I began spiraling down a path of depression and anxiety that would take me years to recover from. Now, almost four years after beginning my treatment, I am off of all 13 medications, including the 7 narcotics. I use these products to control my chronic pain, muscle spasms, anxiety, and depression. In the process I became passionate about the medical value and benefits of the cannabis plant and moved from South Carolina so that I can work in the industry, share my story and help others find a treatment that just might change their life.
